## Teacher's Training & Developmental Plan

- Teachers play a pivotal role in the process of child development and learning. Our teachers are interpreters of child's need responsible for stimulating a sense of inquisitiveness within them teacher's role in school is to laugh inspire and encourage children to believe in themselves and their dreams.
- Teachers development plan is taken in S.B. Patil International School in different phases initially, we aim at identifying the weakness and obstacles faced by the teachers of the phases are as follows:
  - \* Class observations, positive points and courage and motivate the teachers where as weakness and remedies assist to improve them.
  - \* Tutor`s test- apart from the observations, a test is conducted to examine the teachers` subject knowledge and help them to work on their skills.
  - \* Training at the beginning of the academic year - This includes the initial training of all the teachers regarding what all teaching methodologies are to be adopted.
  - \* Ongoing training - the teachers undergo curriculum workshops and discussion with the principles. such trainings guide teachers how to go with lesson plans and day-to-day activities.
  - \* In-house teachers training videos – Brifing the teachers how many particular lessons can be taught in a creative way.
  - \* Model lesson program by principal - model lesson is given by principal to guide the measures of learning to her or his term.
